WORK EXPERIENCE

Software Developer & Data Specialist | *Able God Tech Solutions* **2023 – Present**

- Designed and implemented responsive web applications using React and Node.js.
- Optimized RESTful APIs and managed application deployments on AWS using CI/CD pipelines.
- Managed data input, structure validation, and database updates to maintain high data accuracy across platforms.
- Delivered technical support to resolve client issues efficiently, improving overall user satisfaction.

Web Developer & Content Writer | *Esteemed Digital Agency* **2021 – 2023**

- Developed and maintained custom e-commerce and corporate websites.
- Authored and edited technical articles, blog posts, and website copy to boost engagement and clear user onboarding.
- Integrated third-party APIs for payment gateways and analytics while documenting workflow procedures.

AI Data Annotator & Data Entry Clerk | *Freelance / Project-Based* **2020 – 2021**

- Labeled, tagged, and categorized structured and unstructured datasets to train machine learning and AI models.
- Maintained high accuracy rates in data entry, verifying integrity and correcting discrepancies across database systems.
- Provided end-user and customer support, resolving inquiries via ticketing systems and live chat.

PROJECTS

E-Commerce Platform

- Full-stack application featuring product catalog management, shopping cart functionality, and secure checkout processing.

Real-Time Chat Application

- Built using React, Node.js, and Socket.io for live messaging.

Personal Portfolio & Technical Blog

- Showcase of full-stack projects and technical articles, deployed on Netlify.

EDUCATION

B.Sc. Computer Science | *University of Lagos* **Graduated 2020**
